ACROW Formwork Technology

AEP - Acrow European Prop

High load - bearing capacity with low weight

Durability

The 100 % galvanisation of all surfaces at the end of the production process ensures a long service life .

Slab Props

Acrow European Prop

•The Prop AEP is designed to be used as a support element fpr Acrow's horizontal formwork and in all other conventional shoring applications following all safety rules and regulations.

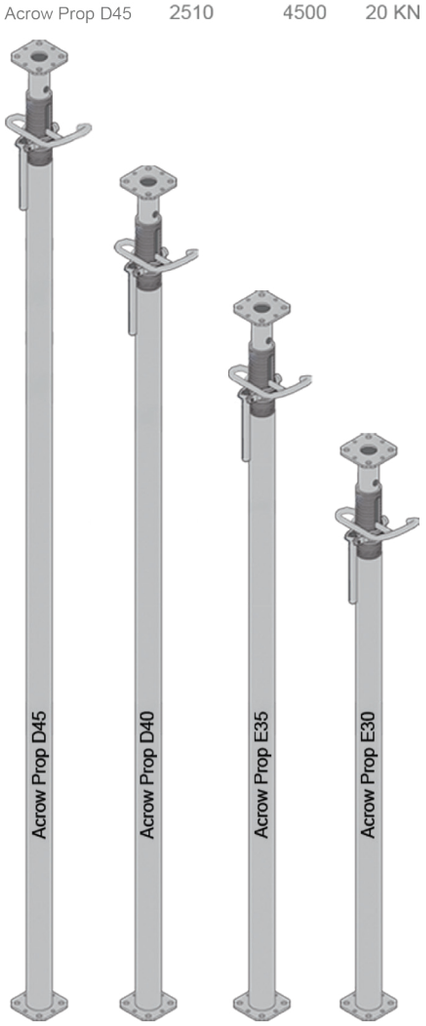

•Permanent preventation against unintentional disengagement the inner and outer parts of a prop shall be prevented permanently from being separated except by intentional action.

•Anti hand trap when the prop is fully closed without pin inserted, there is 100 mm clearence between the endmost part of the outer tube and the inner tube.

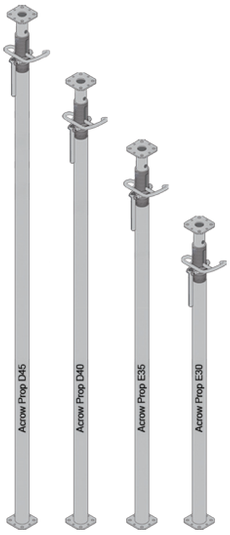

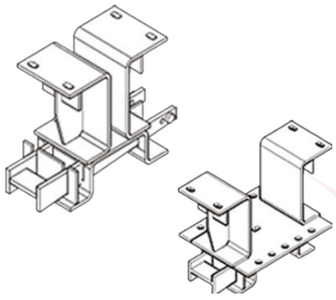

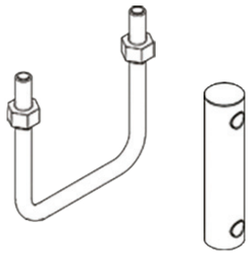

Allowable loads of AEP Props (kn)
